

Nirav Restaurant Performance Dashboard

Executive Analytics & Strategic Insights Report • 2026

1. Executive Summary & KPIs

This executive performance report provides an in-depth financial and operational overview of Nirav Restaurant's sales performance based on an exhaustive review of 1,200 unique transactions across 10 menu categories. Total revenue generated stands at ₹1,968,923 with an aggregate volume of 3,587 item units sold.

₹1,968,923	3,587	1,200	10
TOTAL SALES	UNITS SOLD	TRANSACTIONS	MENU CATEGORIES

2. Sales Revenue and Volumes by Food Category

The detailed metrics below highlight that **Noodles** leads both gross revenue (₹236,920) and absolute volume (409 units sold). **Steak** ranks as the second highest contributor with ₹212,526 from 393 units sold. This completely aligns with the visualization findings.

Food Category	Total Sales Revenue (INR)	Quantity Units Sold
Noodles	₹236,920	409
Steak	₹212,526	393
Sandwich	₹202,218	369
Tacos	₹196,685	367
Burger	₹195,770	354
Pasta	₹194,442	349
Salad	₹191,112	345
Sushi	₹184,733	336
Curry	₹181,925	345
Pizza	₹172,592	320

5. Strategic Observations & Recommendations

- **Maximize High-Margin Performers:** Noodles and Steak should be promoted via combo offers since they attract maximum volume and premium spend.
- **VIP Loyalty Initiatives:** Introduce a tiered loyalty program focusing heavily on the top spenders (e.g., Customer_195, Customer_126) to lock in high-ticket repeat business.
- **Cuisine Portfolio Balancing:** Fast Food and Main Courses represent over 42% of total restaurant revenue. Continental and Healthy segments show growth potential and can be boosted via targeted promotional campaigns.
